Calgary, AB., T3K 0K6

Dear Joanne:

What can I say? You and your team are amazing!

I can't tell you how loved the *Horticultural Therapy Program* has been at *Wellspring Calgary* (one person described it to me as the 'best program we have ever done'). It exceeds our wildest expectations and all of you have been instrumental in making this happen! We can't thank you enough!

Joanne, you and the Greenery team have done so much for Wellspring Calgary. From the plants which adorn our place and give people a great sense of comfort and 'home', the good fortune we feel being blessed with 'elves' that keep our plants healthy and vital and make our spring flowers into a winter arrangement, the beautiful flowers on the table at an event that helped us to make money in support of offering our programs, and now the addition of a class for people to spend time with plants and nature and each other as they together create, reflect and heal. It is all pretty extraordinary. Thank you for all this from the bottom of our hearts!

As you are aware, Wellspring Calgary is completely dependent upon private donation to ensure that all of our programs and services are available free of charge to anyone who can benefit. Our programs are deeply valued by those who have cancer and their loved ones. Your support is making this difference in people's lives. Sincere thanks to all of you once again.

Kind Regards,

Patti Morris
Executive Director
